

HONOR SOCIETY FOUNDATION PRESENTS THE

SCHOLARSHIP *Endowment*

The Honor Society Foundation is dedicated to providing scholarships for members, educational programming, and preservation of honor society history. Honor Society Foundation will fund and administer higher-education scholarships and educational programming for high achievers in many different academic and leadership areas. It will help students reach higher educational goals by offering scholarships to make the college and university experience accessible to students who otherwise might not have the opportunity to pursue a college education.

The Honor Society Foundation encourages students and professionals to take on leadership positions, foster communities and build a team-like environment with other goal-oriented individuals. The Honor Society works as a catalyst for these interactions, but predominantly, members are encouraged to take initiative and make their experience unique to them. We also want to help groom students for the world outside of college.

Kathleen Doherty

Future Perspectives from Honor Society Scholarship Recipients – \$5,000

Penn State University
Master of Science in Nursing

IN HER WORDS

My name is Kathleen Doherty. I hold a Bachelor of Science degree in both Nursing and Sociology.

I am currently a Registered Nurse with a background in Pediatric Intensive Care Nursing and Ambulatory Surgery Nursing. I am currently a full-time student at Penn State University to obtain my Master of Science in Nursing to focusing on the Family Nurse Practitioner pathway. I am also currently pregnant with a baby girl who will be born in February 2021. When I saw the opportunity to apply for this scholarship, I thought of how far I have come, especially as a pregnant nurse and full-time student during a pandemic.

This scholarship will help to decrease the financial stressors between school and becoming a mother for the first time, which will help allow me to focus completely on my future goals as a future Nurse Practitioner. This year has solidified my endurance in overcoming the obstacles life presents and pushing to be the best I can be not only for myself and my family but also for every patient in my care.
